

**60
DAYS**

- ★ DOUBLED DATA ACCURACY RATES TO 98%
- ★ ELIMINATED PAST DUE & EXTENSIONS

Fortune 50 Defense and Space company cements big gains in audit compliance

HOW DID WE DO IT?

- Fortune 50 Defense and Space company leverages Sente’s Accountability and Calibration/Maintenance Console to increase visibility of its end-to-end calibration recall process
- Specific sources of non-compliance became visible and were quickly acted on – **resolving the issue in 60 days.**
- Time saved by technical lab personnel enabled renewed focus on core, value added activity

“ Sente’s calibration normalization fits in perfectly with the Lean 5S initiatives we’re working on. The process has been a tremendous help to both cycle times and downtime savings. *We save roughly 20 days per ATE.*”
